For the Philippines

Specific Skills Seminar for Working in Japanese Manufacturing Industry

Support Project of Acceptance of Foreign Human Resources with Specified Skills in the Manufacturing Industry commissioned by Ministry of Economy, Trade and Industry

Nov.
25 **Mon.**

14:00–15:30

- ✓ “Specified Skills” is a status of residence for accepting overseas workers with certain specializations and skills, which was created to address Japan’s labor shortage.
- ✓ This seminar will present basic information about the system, the latest work categories and industry types covered by it, and an overview of the skills evaluation test.

We look forward to the active participation of those who are considering working in Japan.

Method

Online seminar (**Webex**)
(streamed from Japan)

Target
audience

Non-Japanese nationals who wish to work in Japan under the status of residence “Specified Skills”

About the Handling of Personal Information

1. Entered personal information such as your name, address, and phone number will be handled in an appropriate manner in accordance with our Personal Information Policy and the information below about the handling of personal information (<https://www.sswm.go.jp/privacypolicy>).
2. Personal information acquired via the seminar application form (name, address, age, etc.) will never be disclosed without the individual's consent.
3. Collected personal information will not be used for purposes other than implementing this project.
4. Collected personal information may be provided to the Ministry of Economy, Trade and Industry, which commissioned this project, or the speakers at the seminar.
Except in the cases indicated above or for legal reasons, it will not be provided to a third party without the individual's consent.
5. Due to the outsourcing of work, the handling of collected personal information may be outsourced to a third party.
In such a case, personal information will be handled in an appropriate manner by selecting a supplier that has developed thorough personal information protection standards and stipulating in the contract that it must comply with those standards.
6. If you do not enter and respond to the required items, it may not be possible to respond to your inquiries, accept your application, etc.
